Wolfurt & Surrounding

The market town of Wolfurt is located in the heart of the Vorarlberger Rhine Valley, between the national capital Bregenz in the north and the largest city of the region, Dornbirn, in the south. Due to the attractive location, Wolfurt is the perfect starting point – it doesn't matter if you want to visit one of the different winter sport destinations in Vorarlberg or one of the adjacent countries Germany, Switzerland, or Liechtenstein, Wolfurt is near them all.

The medieval castle Wolfurt was destroyed 1939 due to a fire but was reconstructed and is now private property. Noteworthy is also the parish church, which was built in the style of the K&K Building Company in the Negrelli fashion.

Vorarlberg

The western part of Austria offers many different opportunities in the summer months but also in winter—from hiking and mountain biking, rafting and boat tours to golf and family holidays and from skiing to Snowshoe-mountaintours to the Vorarlberger "Winter magic". In addition, Vorarlberg is, all year long, a place for many cultural events (Bregenzer Festspiele, Schubertiade in Schwarzenberg) and last but not least, don't forget the modern architecture of Vorarlberg.
